

The Litigation & Dispute Resolution team acts for a wide variety of clients to find effective solutions that focus on your needs.

We are dedicated to securing successful outcomes in and out of court, in the most cost-effective way.

INITIAL CONSULTATION

Our aim is to give you the perspective you need to make an informed decision about how to move forward. We offer initial consultations to new clients (and existing clients on new matters) at reduced, competitive rates, providing face-to-face or virtual meeting advice sessions, followed by detailed advice in writing that you can refer to after the appointment.

WHAT WE OFFER

Our experienced and skilled litigators will support and guide you through the dispute resolution process in a professional manner. We focus on resolving disputes quickly and proportionately without the need to resort to the expense of litigation if it can be avoided. If a court ordered remedy is the only realistic solution, we will ensure you get first class advice and assistance.

We will listen to you and work out what you want to achieve. We aim to deliver your key objectives through the advice and assistance that we will provide in a way you understand, that offers commercial value and that will allow you to move on.

We represent clients in matters before the High Court, County Court, at arbitration, and within tribunal proceedings and in mediation. We use carefully selected barristers where required and we have access to a wide range of other trusted experts to assist in case investigation and presentation.
